## CABLES

### ABOUT US

We are engaged in manufacturing control cable for 59 years. We always aim at international markets and we invest heavily into R&D in order to make superior products that feature the latest market trends. We provide a wide choice of control cable products for two, three and four wheelers including brake cable, clutch cable, accelerator cable, speedometer cable and choke cable.

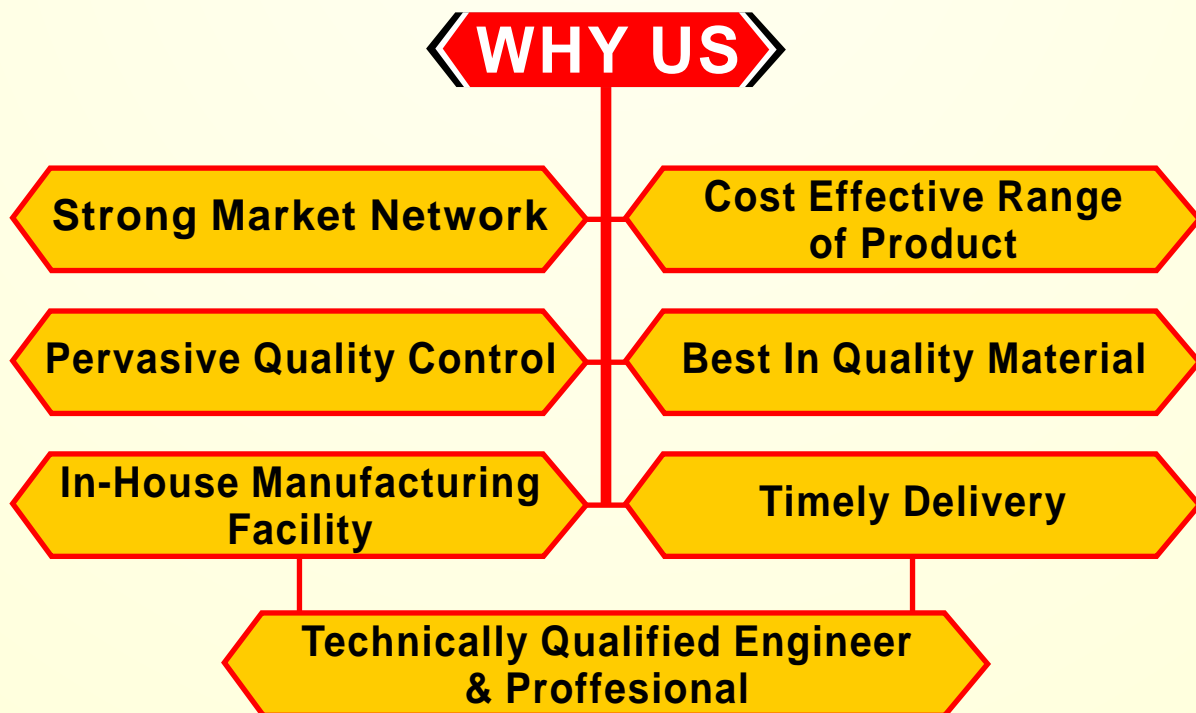

Besides auto control cables and speedometer cables, we manufacture friction free cables as well as tubular twisted wires. They are very popular and are available for all new technology bikes and cars.

We are continuously upgrading technology, machinery and infrastructure to keep up with the fast changing trends in the field of auto control cables and have maintained strict quality control measures at every stage of production, so that our products withstand the test of time and continue to grow up in quality.

Each piece is individually checked for Quality Standards by qualified technicians to ensure best performance. JAGGI CABLE products are fully guaranteed & free replacement is made, if any manufacturing defect is found.

*All Kind of Control Cables For Two & Three Wheelers*

## QUALITY POLICY

Our streamlined production process coupled with the practice of Total Quality Management results in qualitative products & services. We strive to continually improve the quality of our process, products and services to satisfy our customers. Well defined and measured quality checks at each stage of production improves the component that reaches the market and it elaborately speaks about its premium quality. Our adherence to standardized quality norms has gained us the ISO Certification for quality & performance
